

Cloverboud Investigators

Cloverbuds will have a chance to come and learn at monthly fun filled science labs! Members will be able to explore science based activities with a seasonal twist. This month we will be meeting at the Extension Office and lab will start at 10am. Call or email Tiffany to reserve your spot at 740-446-7007 or rieh.11@osu.edu.

April 2nd

Everything Rainbow

☘ Wear your Favorite Rain Boots

April showers brings May Flowers!! April is a great time to see rainbows. In this lab, we will be learning about rainbows, how we see them, why the colors are lined the way they are, and much more!

March 5th

St. Patty's Growing Animals

Wear a club or clover shirt

☘ In this lab, members learned about life science. They were able to explore both animals and plant life and what we all need to survive. We even have a guest speaker, Erica Preston from Gallia Soil and Water, came and talk about trees!
